

608X

Single Input Manometer

Designed to perform standing pressure tests (tightness test)

Features

- Designed for performing standing pressure tests (tightness test)
- Includes special tubing for use in standing pressure test applications
- Single input with +/-60" H2O range.
- Four units of measure (inH2O, mbar, KPa, PSI)
- Display - 4 digit with backlight.
- Auto Off - Conserve battery power.
- Built in hanging hook and back magnets

Specifications

- Measurement Range:** ±60" H2O
- Display:** 4 Digit LCD with backlight
- Input Type:** Single (1/4" Barbed)
- Resolution (max):** 0.01" H2O
- Accuracy:** +/-1% of full scale
- Functions:** One Touch Zero, Back-light, Selectable units of measure
- Units of Measure:** 4 Units (inH2O, mbar, KPa, PSI)
- Battery Type:** 9V alkaline
- Battery Life:** 200 hours (Typical)
- Auto Power Off:** 40 minutes
